WARNING.

We wish to caution all users of Simmons Liver Regulator on a subject of the deepest interest and importance to their health—perhaps their lives. The sole proprietors and makers of Simmons Liver Regulator learn that customers are often deceived by buying and taking some medicine of a similar appearance or taste, believing it to be Simmons Liver Regulator. We warn you that unless the word Regulator is on the package or bottle, that it is not Simmons Liver Regulator. No one else makes, or ever has made Simmons Liver Regulator, or anything called Simmons Liver Regulator, but J. H. Zeilin & Co., and no medicine made by anyone else is the same. We alone can put it up and we cannot be responsible, if other medicines represented as the same do not help you as you are led to expect they will. Bear this fact well in mind, if you have been in the habit of using a medicine which you supposed to be Simmons Liver Regulator, because the name was somewhat like it, and the package did not have the word Regulator on it, you have been imposed upon and have not been taking Simmons Liver Regulator at all. The Regulator has been favorably known for many years, and all who use it know how necessary it is for Fever and Ague, Bilious Fever, Constipation, Headache, Dyspepsia, and all disorders arising from a Diseased Liver.

We ask you to look for yourselves, and see that Simmons Liver Regulator, which you can readily distinguish by the Red Z on wrapper, and by our name, is the only medicine called Simmons Liver Regulator.

How to Acquire the Reading Habit.

[Baltimore Sun.]

An eminent teacher in an address to boys said recently that he attributed the success he had achieved in life to an accident that occurred to him when he was eight years of age. He injured one of his legs so that he was confined to the house for many months. He could not play, and for weary hours had no one to whom he could talk, and he was, therefore, obliged to amuse himself by reading. He read every book in the house and all the newspapers, and by the time he was through had the book-hunger upon him. He scoured the neighborhood for books, but was left unsatisfied until he moved to a great city and obtained access to a large library. By that time he was confirmed in the habit of reading, and through a long life had devoted all his spare hours to mental improvement through reading. According to his view, the chief function of an educator is to prepare his pupils for intelligent reading and to inspire them with a desire to learn. That done, and the habit of reading firmly established, the pupil is prepared to advance to any plane of activity for which his mental endowment, when cultivated, may fit him. Too much value should not be put upon mere book knowledge to the exclusion of other kinds of knowledge, but it forms an excellent preparation for the acquisition of all other kinds. Nor is it of great importance what books shall be read first or what course shall be followed, provided only that the books are of a character to improve the mind in some way and that they are read attentively and with understanding. The chief fault today is that we have a superabundance of ephemeral literature which engages the attention of young students to the exclusion of standard authors. The pupil of forty years ago had a real advantage in the possession of a limited library of choice works from which to study. But the pupil of to-day can, if so minded, keep in touch with current literature while devoting a large share of his time to the classics. This is a necessary course to pursue if one would get a fair literary training, for current literature cannot be fully understood except by those who are tolerably familiar with the great authors of English literature. Allusions to mythological tales in the poetry of the seventeenth and eighteenth centuries. The habit of reading is a very useful habit, with no evil consequences, provided it is not allowed to interfere with necessary work. Making liberal allowance for hours of work, of sleep and of recreation at least three hours a day remain to be accounted for, and these three hours, though they may be interrupted, cannot be better employed than in the reading of useful works. The word useful as here employed includes works of the imagination in prose and poetry, as well as essays, histories and biographies, which are generally classed as substantial and instructive, though so many of them are dull and stupid. In some respects good fiction and good poetry are superior to the learned books, for they contain much that is instructive, while they are made attractive by the play of imagination. The boy who has developed book hunger, if his tastes are not obviously, prevented, is on the road to learning and culture, for the earnest and devoted reader picks up in the course of a few years a great amount of information, and if he reads good books, acquires a knowledge of words and literary forms which in itself will be of the greatest service to him.

Kentucky Asphalt.

The Louisville Post says: "One of the important matters with every city is that of securing paving at the lowest possible cost. It is impossible to overestimate the value of smooth, clean durable streets. This problem has been solved for Louisville by nature itself. Within a short distance of this city there are great deposits of rock asphalt, by all odds the best paving material known to mankind. These deposits are a new source of wealth to the State of Kentucky. They give to the city of Louisville inestimable advantages in one most important particular. It is possible now to secure asphalt streets at little less than half the former cost. It is possible for Louisville today to make a contract, under a ten-years' guarantee, for streets superior to those of Washington, superior to any we have in Louisville, the price being paid $19 50 per square.

A Potato Trick.

A farmer of Calvert county, Md., recently shipped to a market city a quantity of fine Irish potatoes and was returned account of sales at 50 cents per bushel. At the time of shipping he enclosed with the letter of consignment an order for several bushels of new seed Early Rose potatoes, which were promptly sent him with a bill of $1 per bushel. Having marked a number of the potatoes he had shipped to market, the farmer was surprised to find his commission man had returned to him a portion of his crop with a double rate of value. He says it is well known that a sea voyage will improve the quality of rye whiskey, but that such a water trip should double the value of potatoes is unaccountable to him.

Acquitted of Plagiarism.

The young gentleman who won the medal in the late Inter Collegiate Oratorical Contest, W. P. Stewart, of Georgetown College, has been acquitted of the charges of plagiarism with which his victory was for a time clouded. The CLIMAX, without pretending to judge the case, has not desired to shield the accused from the shafts of criticism and contumely that the rival colleges have heaped upon him, but to direct the attention of the latter to the fact that this is a bad time to begin their purification process. It had better been done before the contest. Why? Simply because it is our belief, based upon a twelve years' experience with college boys, that not twenty-five per cent.—no not ten per cent of them are the authors of their original orations. Therefore, if Mr. Stewart's friends were so inclined they might have called for a show-down all around, and what could not have been proven to be parallelism might have been, under oath, shown to be the product of other pens than their own.

It may seem queer for us to enter this protest against the action of the committee for investigating this case, at the time it did. It was simply dangerous. Why it might have led to the exposure of so much plagiarism among the other contestants as to have given Mr Stewart first place on the quantity as well as the quality of originality! And where would the others now be 'at'?

THE VERDICT.

A vote was taken and resulted in the passage of the following resolution:

"Resolved, That we, the Executive Committee of the Kentucky Oratorical Association, find the evidence produced is not sufficient to convict W. P. Stewart of plagiarism."

Extravagance, The Menace of the Country.

IN the April Forum ex-Secretary Morton has a forcible article—"Retrenchment and Ruin"—in which he contends that the present rate of incrase of federal expenditure is at a pace that kills. It is out of all proportion to the resources of the people and cannot be maintained. Retrenchment at Washington is imperative, as also in States and municipalities if ruin is to be averted. The tax rate, in the aggregate, is now in some parts of the country, the ex-Secretary says, from 3 to 6 per cent. on the assessed valuation. "The fixed charges of American citizenship," he declares "must be cut down." If the republic is to be perpetuated we must return to the ancient faith that the sole business of the government is to protect life, liberty and property; not to do everything for everybody.

In 1840 the net expenditures of the federal government were $1.41 per citizen; in 1890 they were $4 75. At present they are still higher. The gross expenditures per citizen in 1840 were $1.65; in 1890 they were $10.06. "In proportion to cost there can hardly be found a local government," says Mr. Morton, "that makes so small a return to the citizen as that made by the federal government." From 1850 to 1860 the average net ordinary expenditure, exclusive of interest and premiums, was $568 363 368; from 1870 to 1880, $1,631,164,380. from 1880 to 1890, $2,098,348,562; from 1890 to 1896, $1,977,397,887 At this rate the net ordinary expenditure, exclusive of interest, from 1890 to 1900 will aggregate $3,295,633,145, or nearly as much as for the twenty years preceding 1890! From 1890 to June 30, 1896, we gave away in pensions $840,363,077, or 42 50 per cent. of the net ordinary expeditures!

Yet the government is not better. The average citizen gets no adequate return. A few flourish at the expense of the rest, but so far as public objects are concerned our outgo is almost all mere waste. Mr. Morton calls attention to the fact that pensions, instead of diminishing since 1880, have increased. Between 1870 and 1880 the pension bounty was under $460,000,000, whereas between 1880 and 1890 it was over $700,000 000, and in the last six years over $800,000.000. He explains that nobody objects to pensions for ex soldiers "who incurred genuine disabilities," but insists that the thousands who have life insurance policies need investigation. These policies have been obtained by persons swearing that they are free from chronic maladies, while at the same time the policy-holders get pensions by swearing that they are victims of chronic diseases. The existence of such cases calls, he thinks, for inquiry and a purging of the roll of honor. Public building jobs, river and harbor jobs, naval contract jobs, "sundry civil" jobs, exposition bounties—these are broad lines of waste in congressional appropriation bills. The whole scheme of the government is affected by reckless expenditure. The burden it lays on producers is not weighed; only the benefit conferred on officials and a few special interests is had in mind. This cannot continue indefinitely. Waste and excessive taxes in time of peace constitute oppression and oppression brings bad consequences.

The fruit growers are hoping the frosts last week were not as fatal as reported.

LITERARY NOTES.

JENNY LIND'S TERRIBLE NERVOUSNESS.

A reminiscent article on Jenny Lind and her home life has been prepared by her daughter, Mrs. Raymond Maude, for publication in the May Ladies' Home Journal. It is said to be filled with interesting memories of the famous singer, and is noteworthy also as being the first view we have of her through the eyes of her adoring daughter. Mrs. Maude brings to light the fact that Jenny Lind was always nervous and overstrung before events—just before singing in a new opera or oratorio, but was quite calm when the very moment of action arrived.

LOUISVILLE TOBACCO MARKET.

FURNISHED BY GLOVER & DURRETT, LOUISVILLE TOBACCO WAREHOUSE.

Sales on our market for the week just closed amount to 4740 hhds. with receipts for the same period 2905 hhds. Sales on our market since January 1st, amount to 36,990 hhds. Sales of the crop of 1896 on our market to this date amount to 35,470 hhds.

We have had another week of light receipts and large sales, thereby materially reducing the stock of unsold tobacco. A very large percent of the offerings of burley tobacco have been poor in quality, with much of it warm and funked. No fine or fancy grades have been sold this week, but the few good hhds. that have been sold brought from $10 to $15 per hundred. The tone of the market has been strong and excepting tobacco in bad condition, prices have been better for all grades and types of burley. The least improvement has been on colory lugs and trashes which however have been taken at a slightly higher range of values. The most marked improvement has been for good bodied red burley including the common medium and good grades which certainly show a decided advance in values. Such old burley that has appeared on our market in sound, sweet condition, has been taken at prices higher than has been current for some-time past. The sweating season is near at hand and all parties should be careful in regard to the order of their tobacco.

The following quotations fairly represent our market for burley tobacco, 1895 crop:

4. That said primary election shall be conducted by officers to be hereafter named by this Committee.

5. That the Chairman and Secretary of this Committee are hereby appointed a committee to provide the ballots and make all arrangements for holding said election.

6. It is ordered that all legally qualified voters who consider themselves Democrats, and who will support the nominees of this primary election, and all young men now under the age of twenty-one years, but who will attain their majority on or before the day of the next general election in November, 1897, and who declare their purpose and intention to affiliate with the Democratic party, shall be entitled to vote in said primary election.

7. That the Chairman of this committee give public notice of said election by posting a copy of this order on the Court-house door and at twenty other public places in the county, and shall publish a copy of this order in every issue of the Kentucky Register and Richmond CLIMAX from date of adoption to time of said primary election.

Gents—I have purchased a box of Wright's Celery Capsules from G. L. Middelton, druggist, and used them for Sour Stomach, Torpid Liver and Constipation and found that they gave me immediate relief every time. I think it an excellent remedy.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the CLIMAX, and send your full post-office address to Dr. Kimer & Co., Binghampton, N. Y. NEW JERSEY JOINS OHIO AND MICHIGAN.

	Plurality Last Fall.	Plurality Spring Election.
Canton, McKinley's home	937 R.	500 D.
Paterson Hobart's home	3,400 R.	153 D.

Not the least important feature of the Democratic landslide in New Jersey on Tuesday is the fact that Paterson, the home of the Vice Presinent, a manufacturing city, befriended by proetective tariffs, has joined Canton, O., the home of the President, in repudiating the Republican party.

One by one the Spring elections are returning Democracy to power. Ohio and Michigan, two weeks ago, gave big Democratic majorities. President McKinley's home, Senator Foraker's home, and Gov. Bushnell's home, all went Democratic, and now the cyclone has struck Paterson. N. J., the home of Vice President Hobart, and it goes our way.

Results in nearly every city in the State indicate that the voters have already repented placing the old-time Democratic commonwealth in the Republican column.

THE Fraklin Grand Jury has indicted Dr. Hunter, John H. Wilson, E. T. Franks, Capt. Noel Gaines and T. R. Tanner, who were arrested and granted bail in $250 each. An indictment for perjury is pending against Hunter. Meantime, the latter holdson to the nomination and is dragging his party to dishonor and the State inte bankruptcy.

HON. W. J. BRYAN, upon invitation of the Legislature, spoke in Frankfort on Monday. As usual no building was large enough to contain the crowd. The eloquent leader began by saying:

"Kentucky and her people are noted for hospitality and kindness to strangers, but this is the first time in my career that I have received an invitation from a State and Legislature a majority of whose officers and members belong to another political party. I have addressed half a dozen Legislatures, but this is the first time such this courtesy has been extended to me."

KANSAS is in the hole to the tune of half a million dollars, by the defalcation of the Republican State Treasurer. The Omaha World-Herald pins this motto at its mast head:

TURN ON THE SEARCHLIGHT.

[From the Fusion City Platform.]

A change of administration at the capital has revealed a republican defalcation of over $500,000. We demand that the searchlight be turned on in all offices in the city hall.

This is the party of purification, bullification, and confiscation. Vote them out, where they are in; keep them out where they are out.

SPEAKING of the President's appointment of Commissioners to visit foreign countries in the interest of an international monetary conference, which was set forth in the CLIMAX last week, Wm. Jennings Bryan says he thinks the personnel of the commission is excellent, so far as Mr. Stevenson and Mr. Wolcott are concerned. Mr. Paine he did not know.

"Mr. Wolcott's visit abroad last summer," said he, "especially fits him for service as one of the Commissioners, and Mr. Stevenson's conspicuous position in the Democratic party and the nation makes his appointment entirely appropriate. The fact that he is a bimetallist, and actively supported the Democratic party in the demand for independent action by the United States instead of being an argument against him will lend weight to his influence as one of the Commissoners.

"All independent bimetallists favor international bimetallism, if that is possible, but do not believe in waiting for other nations to act. The 6,500,000 who supported the demand for independent bimetallism will heartily rejoice if the commission is able to bring about a restoration of international bimetallism.

"But a large majority, if not all independent bimetallists, regard international bimetallism as a very remote possibility. If the Commissioners fail to secure an international conference, or if successful, and an international conference does not secure foreign co operation for the restoration of bimetallism, the cause of free silver will be stronger in 1900 than in 1896, because many who have been inclined to rely on foreign aid will see the necessity of self-reliance on the part of the people of the United States."

In the same dispatch came the report that the commission is regarded as a farce by England. The Globe, St. James Gazette and Pall Mall Gazett all ridicule the idea of the United States bimetallic mission having any practical results. This bears out Mr. Bryan's claim that this country must act independent of any other Nation in this matter.

THE long looked-for Dispatch, the organ of Kentucky Democracy and the paper of the people, made its appearance on Sunday last. Deserted by the majority of city journals, the plain people of the country have now an organ of their own. If they support it, it will be a success; and in that way only can it become a success. It takes first-class patronage to make a first-class paper, and as this is the offspring of necessity, all the more important is it that the people should give it instant encouragement

Wm. Jennings Bryan started the machinery and received the first copy

The Dispatch believes that the policy which it advocates will be good for the farmer, and the mechanic, and the day laborer, and that whatever is for their good is for the good of the merchant, for the good of the banker, for the good of the manufacturer, and for the good of every legitimate business interest; because the prosperity which becomes general always commences at the bottom and expands upward. Prosperity which begins at the top never descends to the masses of the people except in the form of charity to dependents and beggars.

The most fanatical must admit that there are at least two sides to the financial question, and the Dispatch stands alone among the daily papers in Louisville on the side which it believes promises the greatest good to the greatest number. It demands a return to the free coinage of gold and silver as the standard money, recognized and prescribed by the Federal constitution. It will endeavor at all times to meet the just expectations of its friends, and to maintain a high standard of excellence in journalism. It naturally expects the support of all true Democrats who believe in its doctrines, and it may reasonably hope for the patronage of those liberal-minded opponents whose breadth of intellect will prompt them to read and inform themselves on both sides of all important public questions.

The Dispatch seized the occasion to urge those who have invested in its stock, and those who are interested in its political success to read the splendid line of advertisements in its columns daily. When buying goods it is but natural that they should buy from those merchants who advertise in their paper and make it a point in every instance to inform the merchant that they patronize him in preference to others because he advertises his business in their paper. This course will insure the business success of The Dispatch, because merchants advertise to secure business, and it will help to secure the success of the cause which the Dispatch advocates. It will help the merchant who advertises in The Dispatch, and thus show that he wants the trade of the regular Democracy, and is willing to patronize their paper.

THE National Association of Democrats celebrated the birthday of Thomas Jefferson at Washington with a banquet

The chief toast of the evening, that of Thomas Jefferson, was entrusted to W. J Bryan, and his patriotic remarks, uttered in his most forcible style, were listened to with great attention.

Mr. Bryan said in part:

"The Democratic party is strong just in proportion as it proves true to the teachings of its great founder. It is the mission of the Democratic party to chrystalize into legislation the principles which he taught. The party applies Democratic principles to the issues which arise from time to time. For many years the tariff question was a paramount issue, and the party took a more advanced position each year, until 1892, when it declared itself in favor of a policy which meant substantially a tariff for revenue only.

HOLDS CLEVELAND RESPONSIBLE.

"But the President elected at that time, instead of proceeding to carry out that portion of the platform forced upon public attention an issue which had up to that time been considered secondary. Mr. Cleveland, more than any other one person in this nation, is responsible for the prominent position which the money question now occupies. It was his determination to complete the demonetization of silver and make the gold standard perpetual that aroused the masses of the United States to active resistance. The struggle for supremacy between the gold standard and bimetallism was recognized as a contest between the money power and the common people. The explicit declaration of free and unlimited coinage at sixteen to one without waiting for the aid or consent of any other nation was made necessary by the attempt of certain men to evade preceding platforms.

WHERE DISSENTION BEGAN.

"The party struggle which culminated in the Chicago Convention of necessity alienated a portion of the party. The party was placed in the position where it was compelled to indorse the financial policy of the President or adhere to the doctrines and traditions of the party. The position taken by the Democratic party in 1896 will not be surrendered.

"If you doubt the permanency of the Chicago platform as a party creed go among the rank and file of the party and measure the zeal and enthusiasm which that platform has aroused, and you will realize the impossibility of taking a backward step.

"True, the present Administration is seeking to turn public attention to the tariff question, but if our reasoning is well founded, an increase of taxes cannot restore prosperity to the producers of wealth.

"If the Dingley bill brings general and permanent prosperity, the Democratic party will not be in a position to win a contest by opposing it.

"If, on the other hand, the Dingley bill proves a disappointment to those who advocate it, our position of 1896 will be strengthened and public attention will be riveted upon the fact that the cause of financial depression is to be found in our monetary system.

RECENT ELECTIONS ENCOURAGING.

"There is much in recent events to encourage the followers of Thomas Jefferson. The spring elections indicate a growing sentiment along the lines of the Chicago platform. In fact, the elections which have taken place show so great a gain that the Republican party may now be considered a minority party. It has but one hope of escape from the wrath to come, and that is to secure bimetallism by international agreement before the people of the nation have another opportunity to speak at the polls. While we who believe in independent bimetallism generally regard an international agreement as neither necessary nor possible, we may well hope for success. to any one who make the attempt to secure foreign assistance.

EVILS OF THE GOLD STANDARD.

"If our opponents succeed in opening the mints of other nations as well as their own mints, we shall rejoice, because the condition of the people will be improved and they will be able to proceed with other remedial legislation. If, however, the Republican party, after pledging itself to secure international bimetallism, finds it impossible to fulfill that pledge, its expressed preference for a double standard will rise up to condemn it if it attempts to continue longer the evils of the gold standard."

THE PARTY IN POLITICS.

[Louisville Post.]

The noted evangelist, Mr. Moody, takes his politics and his relgion straight. In an interview with a reporter of the Post Dispatch of St. Louis, Mr. Moody said:

"I believe in having two big parties in a big city as well as in the national campaigns. We need them to watch each other. As for reform parties, we hear reform from the men who want to get into office. When they get in, that is the last we hear of it. I haven't much use for the third parties."

Mr. Moody and Mr. Washington Hesing, late candidate for Mayor of Chicago, appear to be of one mind. In accounting for his defeat—he received 15,000 votes to 140,000 for Harrison—Mr. Hesing said:

"I was the pioneer in the independent movement, and after blazing the way, others were given support and took the fruits of my labors. It simply shows that people who talk so much and loudly of reform don't want it when they have the opportunity of securing it."

These eminent gentlemen thus make strong appeals to the Democrats in this district to get together. But perhaps Mr. Hesing has forgotten an unfortunate statement he made early in the campaign to the effect that more men were in the penitentiary because of woman's extravagance than because of man's dissipation. The man who imagines that women do not vote is greatly in error.

Appeared Each Season Until Blood Was Purified With Hood's Sarsaparilla—An Indolent Ulcer.

"For several years I was troubled with carbuncles on my left side and my back. They would disappear in winter and return the next summer. I began taking Hood's Sarsaparilla and have never had any carbuncles since. My little son had a fever and an indolent ulcer appeared on his left limb and spread half way around it. Our physician recommended a blood purifier and I gave the boy Hood's Sarsaparilla with gratifying results." A. G. B. JAMES, Polkville, Miss.

"I have been a great sufferer from muscular rheumatism and in October began taking Hood's Sarsaparilla. I continued its use until January when I could go about as well as any one and I have had no acute pains since." I. W. MINNICK, Grand Isle, Louisiana.

Orr, of North Carolina, who is a sound reasoner, eloquent speaker and earnest worker in the cause of Christ. Some thirty odd confessed and a number of returns to the church were a result. but the amount of good done can never be estimated. The church edifice was often crowded to its capacity and many were unable to secure admittance, showing what intense interest was abroad in the community.

Ralph Bingham, of Virginia, the famous 'Boy Orator" of to-day, who has been winning laurels ever since his sixth year, appeared before a large audience in the College Chapel last Monday evening. On June 14th, 1877, at the age of six, he made his first appearance in the Richmond (Va.) Theatre before an audience of three thousand people. That Berea appreciated the opportunity was proven by the crowded house and the storms of applause. For two hours he held the audience spell-bound. He is undoubtedly without a peer on the American platform.

The Word "Dollar."

According to one authority the word "dollar" is a corruption of the German word "thaler," the form in Dutch being "daalder," Danish "daler," and Italian "tallero." All these different forms were derived from Joachim's Thal, a Bohemain town, where the Count of Schlick, A. D. 1517, coined some excellent pieces in silver of one ounce in weight. "From the name of the town came Joachim's thaler, applied to the above-named coins, as well as that of Schlickenthaler. Hence, Joachim's thaler pieces were first contracted into Joachim's thalers and then into thalers. These coins gained such a reputation," says the St. Louis Globe-Democrat, "that they became a pattern, so that others of the same kind, though made in other places, took the name, the word assuming different spelling through the low countries, reaching Spain as dollars, and through its provinces transmitted to the Western hemisphere, where it was applied to coins prior to the adoption of the federal currency. In coinage the word 'dollar' is a favorite, being found under various spellings in almost every part of the globe." The value of a dollar has so increased of late that it will now purchase twice as much as formerly, particularly in dry goods, clothing, and gent's furnishings at the New York Store, next to Farmer's National Bank, Richmond, Ky.

The Richmond Climax.

WEDNESDAY, APRIL 21, 1897.

FOR THE FLOOD SUFFERERS.

Shall Richmond remain silent while other towns are sending aid to the flood sufferers in the lower Missippi Valley? That whole section is now a waste ot overflowing waters from the mighty Mississippi, which has burst all the bulwarks of nature and the barriers of art and stretches like an ocean over the desolated country. Thousands of homes are hidden beneath the waves, and countless millions are forever lost. Hundreds of human beings have perished by the flood, whilst starvation stares the survivors in the face.

While neighboring towns and villages are sending aid to that stricken section of our beloved Southland; yea, while the whole nation's heart pulses in sympathy at this awful distress, shall Madison county heed not the cry of distress?

The CLIMAX has taken the initiative in the work of raising a fund for the sufferers, and will open books this morning to receive contributions, from one cent up. We acknowledge receipt of a check for $5 from Mr. W. S. Jones, who is really the originator of the scheme.

Remember, that "He gives thrice who gives quickly."

—The copy of "Bryan's Life" taken from Hagan's drug store, by mistake of course, belongs to Dr. W. U. Martin, of Kingston. He admires the taste of the purloiner but deprecates his methods.

—Miss Elvira Sydnor Miller will give her readings and recitations in this city on May 7th, Friday evening. Mrs. Revenaugh Wolf, the vocalist, will accompany her and take part in the entertainment.

Child Badly Burned.

Jeff Roberson's little child was badly injured by falling into a kettle of boiling soap. Its arms and back were badly burned, and for a while it was thought the child would die. The physician, Dr. Martin, has hopes of its recovery.

A Former Estill County Lady Dies in Montana.

Mrs. Bud White, of Boseman, Montana, sister of B. F. and Al Wilcox, of Estill county, died last week at her home in Boseman. She leaves several small children. B. F. Wilcox passed through here Monday enroute to Montana. He will bring the children back with him.

Easter Celebrated at Mt. Zion.

The Easter Entertainment at Mt. Zion was a success everyway. The house was crowded, there were thirty participants, and Rev. J. Robert Boatman, who managed it, was congratulated on the success of the affair. Miss Nannie Tudor and Miss Sallie Ellison aided materially and deserve praise.

—We are creatures of habit, especially in our fears. We get into the habit of talking hard times and it becomes chronic. But the hard times are passing away. Night can not last, the tide cannot stay out. Low prices, such as we have, cannot always prevail. Shrewd buyers should take advantage of our extreme low ebb prices. Good clothing at a low price is our motto. Covington & Mitchell.

R. P. and C. Co.

Mr. Everett Witt is now a full-fledged member of the Richmond Produce and Coal Co., the other partners being Messrs. A. S. Coyle and J. S. Kennedy. They handle coal, produce, feed, flour, seeds, salt, lime and cement. They are the greatest exporters of turkeys, geese, etc., and every Christmas and Thanksgiving they ship about 25,000 pounds of the delicious gobblers, etc.

—Why go away from home for style finish, durability, and prices, when all can be had by calling on our old reliable tailor, G. Schafhausen, at the old stand over White & Gibson's store? He has over 600 samples ot suits. Go and see or yourself and learn prices. apr7 3w

It Was a Hoax.

The Mink family, keepers of the toll gate on the Otter Creek pike, near town, indignantly deny the report that they armed themselves to prevent a raid on their gate. They have not placed any firearms in their house for any such purpose, and what they have on hand are their hunting outfits which have been there for years. They do not anticipate trouble, have made no preparation for it, and dislike the notoriety given them.

—Why is it that we are selling more men's and boys' clothing than ever before? It is easily answered. Buyers are finding out that they can buy good, all wool clothing that is cut, made and trimmed right and which are entirely free from shoddy appearance and cost them no more than they have been paying for clothing of doubtful qualities. Come and see our goods before buying. Covington & Mitchell.

Killing At Berea.

Ed. McBane and Wm. Vaughn quareled over a woman at Berea on Saturday nigt. Vaughn shot twice at McBane, the latter returning the fire, the load taking effect in his adversary's bowels. The ball was a 44-calibre, and death resulted next day. McBane came in and surrendered, and his case is now being investigated before the jury.

LATER.—The Grand Jury dismissed the investigation.

Deceased was one of the best citizens of the locality, was a farmer, and leaves a wife and three children: John Harrison, Mrs. Josia Burdett, and Mrs. John Will Johnson.

A Lightning Pencil Pusher.

Mr. R. Lee Davis contributed a column of Richmond news to the Stanford Journal of Tuesday. Besides supplying news to daily papers from New York to St. Louis, and incidentally getting out a 1½ a week Register, Mr. Davis has time to tend his garden and wheel his baby buggy on the boulevard. When Bryan comes to Richmond in July, Davis will be on the stand and keep flies off his idol.

From An Ancient of Days.

Miss Sophronisba De Gizzelweid writes as follows to the CLIMAX, from Hoppawottomie, Hoshkosh: "Enclosed you will find cash for one year's subscription. Having been a subscriber to the CLIMAX for 97 years and having been away for 65 years, it does me good to keep posted on the history and future prospects of the dear old county. It sounds like a letter from home. Otherwise my health is good. My best regards to Daniel Boone; if he has moved to Missouri remember me to his brother, Squire Boone."

They Made A Mistake.

Several persons were induced to go to Lexington to purchase vehicles for family use, and fancied that they had secured great bargains. The same vehicles could have been purchased in Richmond, as Mr. Donelson buys from the same factories, and can save purchasers the expenses of a trip from home. Trade at home, whenever you can come anyway near getting the same bargain. It is wise, it is neighborly, it is, in a measure, living up to the Golden Rule. You depend for your living upon the people of this section, don't you? What if they passed you by, just for caprice? Go to see Donelson's matchless display of vehicles and you will not wish to go away from home to buy.

CENTRE WINS, OF COURSE.

About four hundred people and Jim Crutcher with a big tin horn that seemed to have been spiked, attended the obsequies and experienced the excitement of C. U.'s defeat last Saturday by Centre College's base ball team. Our boys were weak at first base, and slow in running bases. Centre has the weakest team in years but she carries her "luck" with her. They can stand "ratting" and played up-hill ball, and are a gentlemanly set. Umpire Fleece, of C. U., endeavoring to be fair in decisions, together with a wild throw of our right fielder, Smith, enabled Danville to win four scores of her ten as a result.

Friday our boys play Miami University in this city.

There is a great and growing demand for a town lock-up at Morgantown.

BIRTHS.

CRAWFORD.—On Sunday, April 18th, to the wife of W. T. Crawford, near Kingston, a boy. Name him Dr. Martin.

A Wonderful Freak—A Colt With Two Legs.

A well-developed colt with only two legs was foaled on the farm of W. W. Brookshire, last Saturday week, and was the most remarkable freak of nature ever seen in that section. The hind legs were perfect, but there were no forelegs whatever. The shoulders were perfectly sound.

Mr. Brookshire gave the freak to Mr. John Powell, and believes with proper care it could have been raised. It was sprightly, and made repeated efforts to arise, and when assisted to its feet it tried to walk.

The colt lived twenty-four hours, and was seen by the following gentlemen who reside in the neighborhood, between Doylesville and Ford: Raymond Shearer, John Powell, Perry Powell, W. T. Noland, Cyrus Baxter, Cyrus Baker, and several others.

Mr. Crow Has Another Call.

The CLIMAX has received the following letter from Kirksville, properly signed:

Editors of the Climax:

Acknowledging all that was said in your last issue as true, in regard to Rev. Wm. Crow's call to become a candidate for Superintendent of County Schools, and wishing Old Madison to be honored once more by a pure, true man, and a blue-blooded Democrat, we ask him to withdraw from that race and to run for the Legislature. We want a man with firmness and one who will do honor to our county and State.

"MANY VOTERS."

The CLIMAX is authorized by Mr. Crow to express his profound gratitude for this additional evidence of friendship, but to decline the proposition, since the former office would be more congenial to his tastes and inclinations. He has been out of the county much of the time since his announcement for School Superintendent but says he finds a sentiment in his behalf greater than he had hoped for.

The Gibson Pictures.

The Gibson pictures are in process of a successful and beautiful completion. As at least one member from many of our familes is invited to take part, it is impossible to give here a list of the different characters and scenes. All have not been asked yet and some have not been placed, so of course a perfect list cannot be published until later. We heard of a Richmond gentleman who asked what the Gibson pictures were, so perhaps it would be well to say that those to be given here are a representation of some of the most famous of Charles Dana Gibson's beautiful drawings, in other words, 'living pictures' of the most charming character. Those who will take part have been selected as types most resembling the faces and figures in the Gibson pictures, and this entertainment promises to be one of the most beautiful spectacular exhibitons since the great Temple of Fame exhibition here five years ago. It will occur at the Court House, on Thursday night, April 29, unless the date is changed. It is given by the ladies of the Episcopal church, assisted by a professional lady artist, and as before said, will rival in interest and beauty anything given here in late years.

Col. Caperton's Effective Speech.

Col. J. W. Caperton has received many compliments upon his speech in the case of Fayette Miller's Heirs vs. the National Fraternal Union Insurance Co. of Cincinnati. The case was the most stubbornly contested of the week and resulted in a verdict for the plaintiffs, for the payment of the policy of $5,000, with interest.

Col. Caperton was of counsel for the heirs of the deceased Miller, whom he personally knew and respected. True to his instinctive fidelity to his friends and with a lofty conception of the justice of the claim, Col. Caperton met the demands of the occasion with a speech, which, for profound feeling mingled with inimitable humor, has rarely been heard in our courts. The memory of his dead friend and the knowledge of the needs of his children, added inspiration to his effort, and when he sat down, many remarked that the case was won. Col. Caperton entered into the case with characteristic vigor, and as he never gives half-hearted support to any cause which he believes is just, it was expected that his speech would be a feature of the trial. That the audience was not disappointed is evidenced by the compliments which Col. Caperton has been receiving

The Air Ship Came This Way.

The air ship, about which so much has lately been written, is said to have come this way, and the following from Sunday's Lexington Argonaut is an interesting contribution to yarns now in circulation.

"With bated breaths the citizens of Irishtown last night witnessed a sight never to be forgotten in a lifetime. It was eight o'clock when Charley Hunter and Alex Oxford, railroad employes, in company with George Alverson, a butcher, were traveling along Manchester street toward their homes when they heard a strange, metallic noise overhead

Looking up, they saw something which at first they could hardly describe. It looked like a large, winged spider. The body was cigar-shaped and had a dull, lead appearance. It descended in the vacant field near the C. S. trestle and stopped near the big Ater springs.

"Hunter and his companions hastened for ward to inspect the strange looking vehicle, but were met by the occupant, who had a bucket in hand and asked where he could get fresh drinking water. Securing a supply from the spring near by, he entered the car, declining to say anything of his strange movements, and was soon soaring above the earth, sailing away in an easterly direction toward Richmond.

Hunter and his companions, joined by a number of other residents, came up town and related their experiences, and were willing to make affidavits to the truthfulness of their statements. Only Friday last the strange looking craft was seen floating over Allensville, in the Western portion of the State. It is undoubtedly the mysterious airship which has puzzled the minds of scientific men for some time past, and one strange thing in connection with it is the mysterious conduct of the occupant, who will allow no one to approach near enough to thoroughly inspect the machine, or to tell anything of the object it has in floating about from place to place.

"It has been stated the airship is under contract to the Nashville Centennial Exposition, and is on its way there. During last night quite a number of persons who had heard of its appearance here sat up and watched until well in the morning, with the hope of seeing it return, but as far as known it failed to come back."

Maggie Igo.

This is an age of speed, and increasing speed at that, and everything seems to be on the go. Almost all records are being smashed to pieces from that of an ocean steamer's time across the Atlantic down to a go-as-you-please walking match. It is simply wonderful what an age of progress this is, and there is no telling where it will stop. Speaking of speed reminds us of a quite remarkable filly we saw a few days ago. Judged from her speed this young miss is simply a wonder. She belongs to Mr. R. P. Fox, of Richmond, Ky., and has been christened Maggie Igo. She is not large, but well formed and handsome, and was foaled May 21, 1896. On April 3, when only about ten and a half months old, with very little work, she trotted an eight of a mile on the Richmond track in 17½ seconds—a 2:20 gait—timed by Messrs. J. J. Neale, L. N. Neale, Jeptha Chenaul and Neale Bennett. Maggie has a bold, open gait, and seems to know nothing but trot. She is sired by Mr. Fox's horse, Dr. Hooker 2:23¾, and out of a daughter of Wilkes Boy 2:24½; second dam by Boggs' Grey Eagle. Dr. Hooker is a son of Vatican 2:29½ (sire of Belle Vara 2:08¾, Vassar 2:07 and eleven others), out of Mary Ann (dam of Robin (4) 2:20¼, by White's Hambletonian; second dam Maggie, by Black Diamond. Vatican is one of the good sons of the great Belmont, son of Vara (grandam of Kremlin 2:07¾, etc.), by Hambletonian; second dam Venus by American Star. As Belmont was out of Belle, the greatest daughter of Mambrino Chief, it will readily be seen that Dr. Hooker has three crosses of the blood of the Hero of Chester, backed up by both Mambrino Chief and American Star. Dr. Hooker has a natural right to sire speed, and he is siring it, as will be demonstrated by the performance of the following of his get: Dr. Conner (1), paced a half mile in 1:08¾; Docile (1), trotted the same distance in 1:15; Lucy Gilbert (1) trotted a half mile in 1:12½; Col. Carver (1), a half in 1:18; Maud (1), paced the same distance in 1:18, the last eighth in 17 seconds; Judge Fox (1), an eighth in 1:18½; Dr. Gilbert, an eighth in 17 seconds; and Lady French, Andy, etc., that have all shown fast. Now, if the get of Dr. Hooker train on, which they undoubtedly will, he cannot help being a sire of both uniform and extreme speed.—Kentucky Stock Farm.

The Amende Honorable.

An incident out of the ordinary occurred in the CLIMAX office last Thursday. An indignant but beautiful little lady walked into the building, and going directly to the associate editor, inquired: "Are you the man who wrote that piece about me and said I was the youngest teacher in the United States?" "Yes," replied that attache, "but why do you ask?" "Because," said she, with a stamp of her little foot and a toss of her golden hair, "I am not a *teacher*, I am only a *little helper*; and I don't want you to say that any more. Now, do you hear?" The Knight of the Faber and Shears promised to obey, and the little one departed with an air of conscious triumph. What the CLIMAX said, and which has since been copied throughout the country, was in effect that Richmond could boast of the youngest teacher in the world, in the person of little six-year-old Myra Tevis, who was last year graduated from the Kindergarten School of Miss Florence Hood, and was assisting in teaching the little folks this year. This caused the row, and hence this *amende honorable*—we make apology most ample, retraction most complete.

To understand the significance of the incident it should be remembered that the printing office was in a hub-bub, the noise of the presses, the banging of the mallet on leaden forms, the inevitable chatter ot the printer's "devils," conspiring to distract an older person than our unexpected guest. But the hub-bub ceased as she inquired for the object of her wrath, and the reception accorded her by the entire force was a triumph greater in its significance than ever was rendered to a Cæsar. To borrow for another use the dictum of the poet that "all the world loves a lover," this more than anything else ever experienced proves also the fact that all the world loves a bright and beautiful child. The foreman dropped his mallet, the "devils" stopped the presses, the typos set down their sticks with half-lines in them, and even Old Printer White, full three-score years old and with silvery hair, stopped his record-breaking pace to observe the denouement. Thus the effect when her presence became generally observed was remarkable. The men craned their necks to witness the scene, talking ceased abruptly, and the sunny-haired, blue-eyed little maiden, winning innocently from every soul present such homage as royalty might well envy, was mistress of all she surveyed.

It was the same when she departed. The way was opened for her broader than before, each man nudging his neighbor to give way to the little sovereign, when to the delight of all she kissed her hand, as she walked out the door, "Bye-bye."

But the best thing was the influence she left with us all. Over the big room some one could be heard telling something pleasant of the little visitor's ways and looks. And for fully an hour afterwards, not only was there less noisy talk, but when it was observed that the "devils" made a bad break in their language they were sure to pull themselves together suddenly and look around to make sure that the baby queen was not in hearing. Thus proving not only that all the world loves a pretty child, but also the fact that there is a great force behind the truth when it is said that "a little child shall lead them."

We were all better for having had the little one in our midst, and if wishes may be horses on which she shall ride hereafter, it is to be doubted if even a child of royalty could hope for brighter days than her liege subjects in an instant fashioned for her.

The old story of Prometheus is a parable. Proometheus was on terms of intimacy with the gods From them he stole fire, and gave it men. For this sin he was bound to the rocks of Mount Caucassns, and vultures were set upon him. They onl ate his liver. This grew again as fast as it was pecked away. Are his sufferings to be imagined?

Take a modern interpretation of the parable. There is no cooking without fire. In cooking and eating the mischief lies. The stomach is overtasked, the bowels became clogged, they cannot dispose of the food that is given them. The impurities back up on the liver. Then come tne vultures—the torments of a diseased liver. Dr. Pierce's Golden Medical Discovery is more than equal to the vultures of dyspepsia and its kindred diseases. There is no more need of suffering from dyspepsia than there is of hanging one's self. Sold by all medicine dealers the world over. 1t

Rebels Against Hanna and His Agent at Frankfort—Told to Leave.

Louisville, Ky., April 19.—A special from Frankfort to the Evening Post says:

Dr. Hunter has at last rebelled against Hanna and his agent here, Mr. Samuel Taylor, of Ohio, and Friday afternoon sent a request to Mr. Taylor that he leave Frankfort at once and not return to meddle in the senatorial muddle. This was not done, however, until it became known that the administration had withdrawn its support from Hunter and that it was the desire of Mr. Hanna that Hunter retire in favor of some candidate who could unite the party. Then it was that Dr. Hunter asked Mr. Taylor to leave. Mr. Taylor communicated with Mr. Hanna at once and was told to use his own discretion. He will remain, at least, for a time.

RUSSIAN WAR SHIPS.

The Illinois Steel Co. Receives a Proposition to Bid on Armor Plate for Two of Them.

Chicago, April 19.—The Illinois Steel Co. has received through the Russian minister at Washington a proposition looking to the company's bidding on the amor plate for two Russian warships. The contract is to be for 8,000 tons and in case of award to the Chicago concern would turn into its treasury in the neighborhood of three million dollars. It is said the offer of the Illinois Steel Co. to furnish the United States government with armor plate at the remarkably low figure of $240 a ton has startled war departments the world over. For the last two years the Russian government has been coming to America for nearly all the armor plate used in constructing new ships of war. But the contracts have heretofore been awarded to either the Carnegie or Bethlehem companies, each of which has supplied the armor for a Russian man-of-war.

The war scare in the far east has evidently started the most active preparations in the czar's naval department. The contract which the Illinois Steel Co. is asked to bid upon is the largest ever awarded by the Russian government. It is hinted that it is the purpose of the latter to get in its contract ahead of the United States government.

President Gates was seen this evening before he left for the East, but he refused to discuss the proposition of the Russian government further than to say that the report was correct, and that he had written the Russian minister at Washington, through whom the offer was made, for all necessary particulars for proceeding with the bids.

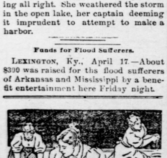
The matter will be laid before the directors of the company next Wednesday in New York.

Steamer Frank Woods All Right.

Milwaukee, Wis., April 19.—Advices from St. Joseph, Mich., state that the steamer Frank Woods, concerning whose safety grave fears were felt, entered that port Saturday morning all right. She weathered the storm in the open lake, her captain deeming it imprudent to attempt to make a harbor.

Funds for Flood Sufferers.

Lexington, Ky., April 17.—About $390 was raised for the flood sufferers of Arkansas and Mississippi by a benefit entertainment here Friday night.



A woman's work is hard in many ways. Unless the woman is strong and healthy her work will cause her much distress and pain, and she will suffer from headaches, and backaches and side-aches, and each evening will find her utterly worn-out, sick and disgusted with life. In this condition of mind and body she cannot be a loving and amiable companion for her husband when he returns from his work weary too in body and mind.

If a woman wants to live a happy, contented, loving, helpful married life she cannot take too much care of the health and vigor of the organs distinctly feminine, for her general health and strength is largely dependent upon her special health in a womanly way. Dr. Pierce's Favorite Prescription enables a woman to be always well and strong where a woman most needs health and strength. It acts directly on the important and delicate organs involved in her wifehood and motherhood. It makes them strong and healthy. Taken during the period preceding motherhood it banishes the usual discomforts and makes baby's coming easy and comparatively painless. It insures the new-comer's health and provides an ample supply of natural nourishment. It cures all weakness and disease, and headaches, backaches and side-aches no longer torture her in her work. Over 90,000 women have testified to the wonderful virtues of the "Favorite Prescription" over their signatures. An honest druggist will not try to force on you a substitute for the sake of a few pennies added profit.

Dr. Pierce's 1000-page "Common Sense Medical Adviser" will be sent free, paper-covered, for 21 one-cent stamps to pay cost of mailing *only*. Or cloth-bound for 31 stamps. Address, World's Dispensary Medical Association, Buffalo, N. Y.

THE LEGISLATURE.

The Adjutant Salary and Highland Bills Killed.

Frankfort, Ky., April 17.—Senate—Friday the bill providing that the appointment of election officers shall be made on the recommendation of the county committees of the two political parties which cast the largest number of votes at the last election was taken up for consideration. The committee on suffrage and elections had previously reported adversely on the bill, and it was killed by being refused its third reading. The house bill reducing the salary of the assistant adjutant general to $1 per year, was defeated. The house bill declaring the District of Highlands, in Campbell county, to be a city of the sixth class was defeated. Senator Hays presented a bill to fix the return day of executions. It is a sort of "stay law," and provides that all executions now in the hands of officers, or issued up to July 1, shall not be returnable till July 1, 1899.

House—Mr. Hiles presented a new bill authorizing the voters in any school district to extend the number of school months. Mr. Witt presented a bill to limit the fees of election clerks in towns of the sixth class. Mr. Lyon's bill authorizing school boards in fourth-class cities to call an election to vote on the question of levying an additional tax not exceeding ten cents on the $100 for school purposes was passed. The bill to permit the sale of drugs without a pharmacist's certificate in towns of less than 1,000 inhabitants was defeated by being tabled.

A DELAY

In the Bribery Investigation on Account of the Illness of a Juror.

Frankfort, Ky., April 17.—Grand Juror Hamilton was ill and unable to come to the grand jury Friday morning, and ex-Representative Thomas Scott was summoned on the jury in his stead. John H. Stuart, a correspondent, was summoned among the first witnesses in the bribery cases at 10 o'clock.

It is said that all the evidence heretofore introduced will have to be laid before the new juror, Scott. This will cause some delay in the reaching of a conclusion in the bribery cases.

It was rumored before the appointment of Scott that the jury stood seven for indictment, three against and two undecided.

It was learned Friday morning that Secretary of State Samuel Taylor, of Ohio, who has been the recognized agent of McKinley and Hanna, sent a telegram to Hanna Thursday night stating that three-fourths of the members of the legislature now supporting Hunter for United States senator were of the opinion that Hunter could not win, and that a large majority favored a new candidate, and asking what to do.

Three more ballots, making 48 in all, were taken Friday for United States senator, but without an election. The three ballots were exactly the same:

Hunter, 58; Blackburn, 42; Martin, 11; Boyle, 6; Stone, 1. Total, 118. Necessary to choice, 60.

The final ballot Friday, which left Dr. Hunter still one vote from election to the United States senate, was the one hundredth which has been taken with the purpose of electing a successor to Hon. J. C. S. Blackburn. There was the usual excellent attendance, and the play appears to be wearing well. The royalties are not stated as yet, but the production has cost the state of Kentucky about $60,000.

Frankfort, Ky., April 17.—A truce in the senatorial battle of the ballots has been declared till next Tuesday. The respective steering committees Friday afternoon signed agreements that on Saturday and Monday one vote should be cast for each of the candidates. Nearly or quite half of the members have gone home or elsewhere to stay till Tuesday morning, and most of the remaining half will go to Louisville on a special train Saturday afternoon to attend the address of William Jennings Bryan at the Auditorium. It is generally agreed that the Blackburn people are hoping for the indictment of Hunter on the idea that if indicted he can't withdraw under a cloud, and the cloud couldn't be lifted till the trial of the indictments, which would last the summer out.

The grand jury, which has kept three deputy sheriffs busy looking for and summoning witnesses for two weeks, isn't yet through and adjourned again Friday night without making a report. The court adjourns early Saturday afternoon for the week and it is said that Judge Cantrill has notified the jury that a report must be forthcoming before this adjournment.

Sheriff Plummer Favors the New Law.

Frankfort, Ky., April 17.—Sheriff Jule Plummer, of Newport, was here Friday. While not here as a lobbyist, Mr. Plummer is telling his friends in the legislature that he hopes the bill providing for hanging criminals inside the penitentiary walls will become a law. Mr. Plummer thinks the change would cut off much needless expense and would be very much in the interest of morality and order. The bill has already passed the senate. He does not favor electrocution.

The gates were thrown open Thursday afternoon.

For Law Clerks.

THE SENATE

Passes the Stenographers' Bill—But Little Business Transacted in the House.

Frankfort, Ky., April 16.—Senate—Thursday the bill for the relief of the court of appeals by employing law clerks or stenographers for each of the judges was the special order. Mr Petrie's substitute, to reduce the pay of said law clerks to $700 per year each, was defeated. The substitute as proposed by the committee, appropriating $6,000 annually for two years for the employment of such clerks as the court may in its discretion decide proper was adopted, and the bill passed as amended by the substitute—yeas, 20; nays, 12. Senator Goebel moved to reconsider, and that the motion lie on the table. Some of the republicans tried to filibuster to prevent a vote on the motion, but after a vote or two the lieutenant governor ruled the other motions out of order because made for dilatory purposes. The motion was adopted and the bill will go back to the house for concurrence in the amendment. The bill authorizing certain changes, by proper authorities, of the boundary of school districts was passed.

House—The bill refusing convicts the right to testify as witnesses was killed by being refused its second reading. Mr. Hiles presented a petition from citizens of Carter county protesting against the passage of the bill providing that counties may issue new bonds and levy and collect taxes to refund old bonds.

HE MAY DIE.

Another Boy Said to Have Been Assaulted by Trainmen Nearing Death.

Bowling Green, Ky., April 16.—The coroner's jury met again Thursday morning and continued the inquest over the mysterious killing of Cooper Morris at Rockfield last Saturday night. Five witnesses from Rockfield testified that on Saturday night train No. 113 did stop at Rockfield for a while, although the crew have sworn that they went through that place at the rate of 30 miles an hour.

John Coyle and Will Harrison testified that they were at the bedside of Morris when he died, and that several hours before he died he seemed rational, and when they asked him who struck him he said distinctly twice that Brakeman Jackson did it. Several physicians were put on the stand, all of whom testified that it was impossible for the boy to have been struck by a train, and that he was assaulted with an iron instrument of some kind.

Thomas, the other victim of the inhuman act, was not so well Thursday night and may die before making a statement, but the friends of the victims think it unnecessary. The case will be continued Monday.

Double Murder and Suicide Attempted.

Hopkinsville, Ky., April 16.—Wm. Harrison, an employe in the coal mines near Morton's Gap, attempted to commit suicide by shooting himself through the breast with a pistol, after having tried to kill his wife and father-in-law, who escaped, after being wounded, and hid themselves. He was jealous of his wife. He was tried for lunacy several days ago, but was acquitted. He is in a critical condition.

CHARLES BUNCH,

A Kentucky Convict, Shot and Killed While Attempting to Escape.

Eddyville, Ky., Aprill 15.—Charles Bunch, a white convict, serving two years from Hart county, was shot and killed by a guard late Tuesday evening.

The prisoner was trying to make his escape from a rock quarry in which he was working. The guard ordered the man to stop, but he paid no attention to the warning and ran like wind over the hill. The guard fired with deadly aim.

The coroner's jury brought out the above facts and justified the guard.

The Bookmakers.

Louisville, Ky., April 15.—All bookmakers will be permitted as usual to draw in at the spring meeting at Louisville, Latonia and Oakley. This announcement was made officially here Wedesday and is intended as a contradiction of the rumor that each association would put on its own books in connection with the Mutuel system of betting. It is almost a sure thing that Louisville will not attempt to put on the Mutuels this year.

One Constable Dead, Another Wounded.

Henderson, Ky., April 15.—Near DeKoven, Union county, Wednesday evening James Green and Wm. Gree, a deputy constable, were shot dead and constable Wm. They are armed with rifles.

Georgetown, Ky., April 15.—Clarence Vinegar, colored, who killed his wife at Watkinsville, this county, Sunday, was arraigned before Judge Bates Wednesday for murder. He waived an examination and was held to circuit court without bail. Vinegar is only 23 years of age. Jealousy was the cause of the crime.

THE LEGISLATURE.

"Mob Violence" Bill Considered in the House—Clerical Assistance for Courts.

Frankfort, Ky., April 15.—Senate—The house bill providing for clerks or stenographers for the judges of the court of appeals was reported by committee with a substitute, which Senator Goebel said was a compromise. The substitute, which was adopted, provides for an expenditure of $6,000 per year for seven clerical assistants for said court. The bill was made a special order for Thursday. House bill to transfer the town of Pineville from the list of cities of the fourth class to cities of the fifth class was passed. Senator Hayes then called up the Bell-Crumbaugh contest case, and it was made a special order for next Tuesday. The bill to amend the law providing the manner of fixing or changing the boundary of school districts was made a special order for Thursday.

House—The house resolved itself into a committee of the whole to consider the "mob violence" bill. Mr. Howard's amendment, providing that the county in which the damage was done should be liable for punitive damages. Mr. Phelps' amendment was also adopted, providing that it must be shown that a person was voluntarily present with a mob before he can be convicted. Further action on that bill was cut off by the arrival of the hour for the joint session.

FIRE AT CRITTENDEN.

Business Portion of the Town destroyed—The Loss Will Reach $75 000.

Crittenden, Ky., April 15.—The greater part of the business section of this town was destroyed by fire at 3 o'clock Wednesday morning.

The facilities for fighting the flames were poor, and the town hall, a bank, three stores and a livery stable were destroyed.

The fire started in S. M. Robinson's drug store, near Collins and Main streets. Wind carried the flames to the town hall, a three-story structure. This was destroyed.

Mrs. R. Skillman and her children, who had apartments in the building, were barely rescued alive. The loss on the town hall was $10,000; insurance, $1,500.

A part of the walls fell upon the Tobacco Growers' deposit bank, which was damaged $25,000. The other buildings burned were R. Richards & Co.'s dry goods store, loss $8.000; Fletcher & Vallandingham's hardware store, loss $4,000; insurance, $400. Hogstett & Ratliff's dry goods store was saved.

Crittenden is a town of 500 inhabitants, located in Grant county, ten miles north of Williamstown, the county seat, on the Cincinnati Southern railroad.

Toll Gate Raiders Fear Justice.

Carlisle, Ky., April 13.—Raiders again renewed their depredations on toll gates, removing four, three within a radius of a mile from this town. The only gates now remaining are on the Maysville and Lexington pike, owned by W. W. Baldwin, known as the "Turnpike King." There seems to be some hesitancy on the part of the raiders to destroy these gates, as Baldwin would spare no expense in having the marauders brought to justice.

NEW SPRING DRESS GOODS!
These beautiful sunshiny days the Ladies fall in line and march to the City Store to inspect the varied stock of Novelties.
It useless to tell the Ladies that checks, large and small, are all the rage. Every one can have a check suit, or at least a check suit, or at least a check skirt, as the material ranges in price from 39c a yard to $6 a suit.
The popularity of the Scotch story, "The Bonnie Briar Bush," has given us these beautiful Scotch Plaids and Checks, and "Drumlochty" Plaid is the newest and prettiest, but there are Coverts, Etamines and Tinsel Cloths among the Noveltties, and an increasing demand for solid colors; so the female population need not be dressed in uniform.
Black Goods receive our closest attention; newest weaves, best blacks.
A beautiful Wool Grenadine at 50c per yard.
Etamine Cloth in Black and Navy will make a dress that will not muss or or catch the dirt.
We turn from this department to the
WASH GOODS Dimities at 10c, 15c and 20c per yard. Among the newest Wash Goods are Scotch Lappetts in solid colors and fancy; handsome Grass Linens with Satin stripes; Linen Lawns, &c., making as full and complete a line of Dress Goods as ever shown by this house. Bear in mind we have the Trimmings to suit every one of them, and Laces, Embroideries and Ribbons.
COTTONS AND SHEETINGS. It will pay you to buy right now, and at this store for present and future wants. This is the period on such staples when cost and value are not so closely considered as usual, and far seeing shoppers know it and take advantage of it. The goods we carry are standard, best brands.
